

## Environmental Policy

We are committed to:

### 1. Reducing water consumption:

- Installation of water flow regulators on taps
- Bath towel reuse policy (when notified by guests)
- More efficient water use by all staff

### 2. Reducing energy consumption:

- Gas and electricity contracts with 100% renewable energy
- Progressive installation of low energy consumption light bulbs
- Radiators equipped with thermostatic valves
- Motion sensor-controlled corridor lighting
- Keycard-controlled lighting system in every bedroom
- Double-glazing

### 3. Reducing paper consumption:

- A move to paper free digital archiving of administrative documents is in process
- PEPC or FSC certified printer paper

### 4. Reducing waste:

- Change from individually-wrapped products at breakfast and in bathrooms
- Recycling of furniture and objects
- Recycling of batteries and printer cartridges
- Sorting of recyclable waste (paper/glass)

### 5. The environment:

- Use of acrylic paint for renovations
- Majority of cleaning products used are biodegradable
- Use of public transport by all staff
- No smoking anywhere in the establishment
